Analysis by the Legislative Reference Bureau

Under current law, a school board may grant a high school diploma to a pupil only if the pupil meets specific statutory requirements, including earning a certain number of credits in various subjects in the high school grades. This bill provides that, in order to graduate, a pupil also must earn at least one credit of personal financial literacy that includes financial mindset, education and employment, money management, saving and investing, credit and debt, and risk management and insurance.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
